

HOW TO RE-INK TRODAT PREMIUM FLASH

RE-INKING MAXLIGHT **S**-STYLE AND **Z**-STYLE

1
Remove handle from the MaxLight mount by pulling upwards.

2
Select right colour of MaxLight re-fill ink and add a few drops in each ink port.

3
Put handle back onto mount. Let ink migrate overnight and test stamp. Repeat steps if necessary.

RE-INKING MAXLIGHT PRE-ASSEMBLED **Z**-STYLE

1
Slide die box out of MaxLight mount and place it on a piece of paper.

2
Select right colour of MaxLight re-fill ink and add a few of drops into slotted back of die box.

3
Let ink soak in and slide die box back into mount. Wait 45-60 minutes for ink to migrate and test stamp. Repeat steps if necessary.

RE-INKING PSI **E**-STYLE AND PRE-ASSEMBLED **Z**-STYLE

1
Slide die box out of PSI mount and place it on a piece of paper.

2
Select right colour of MaxLight re-fill ink and add a few of drops into the die box.

3
Let ink soak in and slide die box back into mount. Wait 45-60 minutes for ink to migrate and test stamp. Repeat steps if necessary.

RE-INKING SLIM STAMP E-STYLE AND PRE-ASSEMBLED Z-STYLE

 <p>1</p>	 <p>2</p>	 <p>3</p>	 <p>4</p>
<p>Pull off the cover lens from Slim Stamp mount.*</p>	<p>Remove the index card.</p>	<p>Select right colour of MaxLight re-fill ink and add a few of drops into the cavities.</p>	<p>Let ink soak in and put index card and cover lens back in place. Wait 45-60 minutes for ink to migrate and test stamp. Repeat steps if necessary.</p>

* Slim Stamp 1444, 2773, 3679, 4141 are re-inked like PSI stamps, just slide die box out of mount and add a few drops of ink.

RE-INKING SUPER SLIM

 <p>1</p>	 <p>2</p>	 <p>3</p>	 <p>4</p>
<p>Pull off the cover lens from Super Slim mount.</p>	<p>Remove the index card.</p>	<p>Select right colour of MaxLight re-fill ink and add a few of drops into the cavities.</p>	<p>Let ink soak in and put index card and cover lens back in place. Wait 45-60 minutes for ink to migrate and test stamp. Repeat steps if necessary.</p>
